

Framing the Future of Los Peñasquitos Lagoon

Enhancement Plan Update – Workshop II

Torrey Pines Association and Los Peñasquitos Lagoon Foundation invite you to participate in the second of a series of workshops designed to solicit input and support as we update the 1985 Los Peñasquitos Lagoon Enhancement Plan and Program.

The first workshop, held in October, focused on project goals and objectives. Were they comprehensive in meeting key values of individual participants and stakeholder groups? Working together in breakout groups, participants reviewed, assessed, and modified a draft set of project goals and objectives developed to guide the evaluation of alternatives for lagoon restoration and management.

Mark Your Calendars for Workshop II

November 14, 2012 7:00-9:00 pm

Sumner Auditorium at Scripps Institution of Oceanography

We'll begin with a presentation of the results generated by breakout groups during Workshop I. These results included refinement of existing draft goals and objectives, addition of new goals and objectives, as well as other comments provided by workshop participants. We then move to breakout groups in Workshop II that will help develop criteria and components for improving, protecting, and preserving Los Peñasquitos Lagoon based upon goals and objectives from our first workshop. Criteria and components developed in Workshop II will then be used at a later date in Workshop III to facilitate the development of 3 to 5 alternative scenarios for the future for the Lagoon, as well as the identification of constraints and opportunities for each alternative.
